I swear this site is schiztophrenic sometimes. I told people that if they're gonna illegally carry in DC that they should have a lawyer's contact info on hand in case they probably get arrested, and I got shit on for it.

I dont understand bringing guns to d.c. of all places. Its not like politicians are walking by or will even be in d.c. Who are the guns for? Optics? I'm sure the d.c. mayor bitch will be calling in the national guard for backup.

▼ the tyrants dont care about support if they did!! the moment donald trump had insurmountable lead tr would have given up trying to fix and steal the election and prepare for 2024! but no they said fuck hi

support doesnt matter the supreme court said no standing because they fear Burning looting and murder from antifa/blm!

so they care about POWER the consequences of defying antifa they "fear" you think they would fear 70 million sheep in DC?

no they will push their agenda of communism and global reset grabbing power untill they truly fear the populace!

seeing 5000 10.000 25000 armed people building (mock) guillotines and gallows might put the fear of god in them

what is the saying again:

"When governments fear the people, there is liberty. When the people fear the government, there is tyranny.

it is god damn crystal clear that they dont fear we the people! ! time to put the fear of god back in them! otherwise they will keep eroding away at the constitution

Edit: i do agree about it broadcasting like a retard

I keep seeing people say that politicians fear antifa, the only people who fear antifa are local store owners on the streets they frequent. Politicians pretend to be afraid in order to push whatever agenda they believe in. Antifa is absolutely nothing to them, with one order they can clear them out, they just choose not to.

If Antifa didn't exist, there would be another excuse lined up.

Holy shit, thank you! Why do people seem to think deep state politicians are scared of Antifa? They LOVE Antifa! Antifa not only pushes their Marxist agenda, but they also destroy small businesses which makes the middle class owners poor and cause widespread suffering. BLM is the same except they also get to play the race card. If either of the organizations decided that they were going to stop the violence and preach messages good to their self interest (getting educated in a real skill, and capitalism) then the Politicians would turn on them so fast it wouldn't be funny. I bet they would probably say, "we don't negotiate with terrorist," and send in the police to actually police. Y'all need to realize, they don't just want to control you, they HATE you. They can't understand why their bullshit MSM propaganda didn't work on you. They even tried getting Fox to turn in hopes that we were somehow more loyal to it than to freedom and law. They are evil and want you to suffer. The deep state is filled with chicken necked sociopaths who think they are James Bond.

1 ▼ Yeah, I agree wholeheartedly.

I agree with this post's headline, I mean I do think people should be encouraged to exercise their 2A rights, especially considering the situation around this protest, but don't get arrested by the DC polit police before the actual protest out of being stupid by broadcasting your own weapons in advance. They're there in case they're (hopefully not) needed and to make a point on the day.

But as far as the rest / optics goes? Who the hell even cares anymore? They don't give a damn, they'll call you a Nazi for disliking George Soros, an actual Nazi collaborator. They'll call you a Nazi if you're an orthodox Jew who votes Trump. They'll call you a Nazi whether your gay, black or w/e, look at how they attack the leader of the proud boys - or how Big Man Tyrone on YT was called the figurehead of the white supremacist movement online, you know, a black Cameroonian guy. Look at how pulling troops out of the Middle East is good until Trump does it, then it's bad.

Facts don't matter to that crowd so why should we care? They're in the process of trying to steal a fucking election and many are willing to turn a blind eye to that. Does anyone here think the Allies gave a fuck about their optics among the German populace while they were in the middle of the war? Fuck no. Save your optics after victory has been had and justice meted out.

I mean, Biden cheated, it looks like McConnell and Romney cheated, *zero* people could vote and the msm would still report that Ds got 4000 to Rs 6000 in this county and Rs got 6000 to Ds 4000 in that county. It's a farce and stupid to play the optics game.

Anyone who can be won over with facts, fine, but I don't give a damn about the rest.

▼ I think the point is a gun and a couple magazines x the number of patriots that show up will be thousands upon thousands of rounds, and there is no way in hell whatever law enforcement they have there could easily go up against even 50 armed people at once, let alone hundreds. There is force in numbers. Some random LEO with a rifle and thousands of rounds is nothing against a large group with rifles and a few hundred rounds each.

Police are likely to just face track people then send the FBI to homes. Or that would be their plan with these large numbers.

Just thinking realistically.

Second of all your second amendment rights are not privileges that the police can take away. The point of the second amendment is to be able to defend yourself from government tyranny.

The left showed up in DC and burned down churches and attacked cops with rocks and bottles and the cops backed down.

If there are tens of thousands of Americans there with even just 3-5% being armed, no cop will lay a finger on anyone. DC mayor cannot call the national guard without Trumps say so, think Trump will call the National Guard on his supporters?

Not advocating for terrorism, or violence. But if the legislature tries to gaslight the people, and lie directly to their face and ignore all of the evidence of fraud to install a Chinese puppet into the highest office of our country?

Well, your grandkids history class will have several chapters added to it for the Second American Revolution.

10 My understanding is Trump's goal is a *mass* of Trump supporters - all ages and walks of life, not a select group of warriors. And, the chest pounding and threats only undermine our chances of accumulating the largest number of people possible. We want families, we want *everyone* to join this remarkable moment. Robert Barnes, who has been in consultation w/ DJT this month, states, "The President's goal and objective is to show the Senate and Congress how much power he still wields and to make it clear to them in a demonstrable form....That's why, people stay away from the militia law stuff. That's a red herring and rabbit hole meant to distract and detour people. What the President wants is constitutional remedy and popular will and to show and remind the Congress that he is the legitimately elected President."

"The key is Congress has to see an unprecedented, massive will of people." "Democratic, peaceful, constitutional marches".....in other words, Trump told us exactly what he wants; no need to read into it.

If you flail around your gun (or worse: are unarmed) and do nothing to actively protect your liberties and oppose tyranny, you are ZERO threat to them. As spoken in an above post -

“The left showed up in DC and burned down churches and attacked cops with rocks and bottles and the cops backed down.

If there are tens of thousands of Americans there with even just 3-5% being armed, no cop will lay a finger on anyone. DC mayor cannot call the national guard without Trumps say so, think Trump will call the National Guard on his supporters?"

Massed anger and rocks proved to be not toothless enough for the Left, for the cops to back down - for the paltry couple of thousand angry Antifa, yes.

Will they afford the Right the same hospitality? They seemed to for the Proud Boys a couple of weeks ago. The Proud Boys had what, ~10,000 there?

Capitol police will do for DC what the LAPD did for LA during the Rodney King riots, and every BLM burndown event: cordon off the riot area, and try to prevent outsiders from coming in. Capitol won't be enforcing laws, except for the stragglers they can pick off on the edges.

The real security will be the federal officers - the US Marshalls, Secret Service, and any private security licensed to operate there. They will be guarding the lives of the politicians. They aren't there to abrogate your 2A rights to bear arms.

I have now worries about 2A support right now. 97-98% of those showing up doing the CCW thing won't have any confrontations for breaking DC's strict CC laws. There will be too many there.

As far as elections...

“The next elections will be rigged anyways, so they won't need your vote any more.”

---

President...twice...and America didn't blanch once about it.

It's only now dawning on the American public that we've glibly, naively, and arrogantly gone along with this electronic voting import from Chavez, and the highest office of this country is but a bought and sold commodity. The sole exception is Trump, and they are fighting hard to rid the US and the world of him.

If this fraud isn't stopped this election, we will never have another true election. And Americans are already turning their backs like it all doesn't matter...

▼ They cannot deny our rights, and now is a great opportunity to show the entire world exactly how dangerous guns are.

They are dangerous to criminals and tyrants, but perfectly harmless otherwise.

DC's crime rate will drop and there will be less litter on the streets when we march.
